Chamlon™ Sweatband for Evolution® Safety Helmets - Pack of 10

Rejuvenate your helmet. Restore your comfort.

The JSP Chamlon™ Sweatband is a premium replacement accessory designed to bring new life to your safety helmet. Whether you're dealing with long hours on-site or working in hot, demanding conditions, this sweatband refreshes your helmet interior for superior comfort and extended wearability.

High Quality Cotton Core

Crafted with a soft cotton interior that offers exceptional comfort against the skin—ideal for all-day wear.

Highly Absorbent PU Coating

Engineered for maximum moisture absorption, the outer polyurethane layer locks in sweat, keeping your forehead dry and your vision clear.

Skin Safe

The material is pH neutral with dermatological testing and OEKO-TEX® 100 certification to prevent skin irritation.

Simple Replacement = Instant Refresh

Easily fits into place on compatible Evolution® helmet systems. In seconds, your helmet can feel like new—without the cost of a full replacement.

Cost-Effective Helmet Maintenance

Instead of replacing your entire helmet, swapping out the sweatband helps extend its lifespan while maintaining hygiene and performance.

Helmet Compatibility

Compatible with JSP's Evolution® range of safety helmets.
(Note: Not compatible with Evolution®8)
